THE AMERICAN PHYSICAL SOCIETY OFFERS A FREE TRIAL YEAR OF MEMBERSHIP*

The American Physical Society wants to introduce physics students in the U.S., Canada and Mexico to the physics community by offering a one-year free trial membership. After the one free year, you may retain membership at a special low rate and continue to receive all student privileges while you are enrolled as a student.

Membership in the Society includes subscriptions to *Physics Today*, *APS News*, and access to the online APS Membership Directory. In addition, you may take advantage of Society journals and other publications (paper and online) at greatly reduced subscription rates, network through a growing number of specialized units, receive career information and updates, and reduced registration fees for APS meetings.

APS also keeps its members informed on relevant government activities; conducts technical studies of timely technical issues; works to improve physics education; and promotes equity of educational and employment opportunities as well as international cooperation in physics. Your active participation in the Society will help support the mission of APS and communication among physics professionals.
