Approved by the Committee on the Status of Women in Physics, 27 March 2015

- Increase the fraction of women in physics by increasing the number who enroll in and complete undergraduate physics degrees
- Understand and implement solutions for gender specific issues such as stereotype threat, unconscious bias, and impostor syndrome that affect careers of all physicists
- Enhance professional development opportunities for women in physics such as mentoring, mentor training, and negotiation skills workshops
- Remedy issues that impact gender inequality in physics by encouraging research into fundamental causes, assessing policies, and advocating good practices
