3. APS CENTENNIAL MEETING IN ATLANTA, GA, 20–26 MARCH 1999

The 1999 APS Centennial Meeting, a combined March and April meeting, will be held in Atlanta starting Saturday, 20 March, and lasting through Friday, 26 March. The Centennial celebration will bring together participants from all units of the APS as well as representatives from foreign physical societies. This unique event will honor many great discoveries in physics during the last century as well as highlight current research efforts leading into the 21st century. The meeting will feature special symposia designed to appeal to physicists from all walks as well as the usual invited talks on leading edge physics research. A special Centennial advance program will be available to APS members in September.

In addition to a possible keynote address by President Clinton, special plenary sessions will highlight speakers such as S. Weinberg (U. Texas), H. Varmos (NIH), J. Birnbaum Hewlett-Packard), M. Good (Venture Capital), and R. Smalley (Rice). An exhibition showcasing the Nobel Prize-winning work of some 75 scientists is being organized. More than 40 Nobel laureates are expected to attend. The DNP will host its usual complement of invited sessions, mini-symposia, and contributed paper sessions for an APS spring meeting.

The dates include the Wednesday “workshops,” which are held in conjunction with the DNP Fall Meetings. Holding “workshops” at the DNP Fall Meetings is a tradition that began with the 1986 Vancouver meeting. All meeting attendees are welcome and encouraged to come. It has been the intention of the DNP Executive Committees that these “workshops” should have broad appeal, with introductory pedagogical talks for the benefit of those who have come primarily for the DNP meeting but want to take the opportunity to learn about a field of specialty of the local community.

Appointments of members to DNP committees are for one- or two-year terms. Division Councilors are elected for four-year terms. Executive and Program Committee dates correspond to the end of the term following the Spring Meeting except for Division Councilors, as indicated.
The 2000 APS Spring Meeting is tentatively scheduled for Long Beach, California. Discussions are underway to bring the 2001 meeting back to Washington, DC but perhaps with a switch from spring to fall. Any person with strong feelings about such a switch should contact Susan Seestrom, who serves on the APS Meetings Committee and Executive Board, or write directly to Judy Franz, APS Executive Officer.

6. NOMINATIONS FOR APS FELLOWSHIP

The procedure for the election of a Member to Fellowship is outlined in the Membership Directory of the APS under “Constitution and Bylaws,” or can be found under Fellowships on the APS Home Page. A nomination form, which cites the principal contributions of the candidates to physics, should be prepared and signed by two members of the society. The total number of members who could be elected to Fellowship in a given year is one half of one percent of the total APS membership.

The DNP deadline is normally 1 April. Nomination forms are available from the APS Home Page or can be obtained by sending an e-mail message to “fellowship@aps.org or by calling (301) 209-3286. Completed forms should be returned to Dr. J. Franz at the same address. Information can also be found on the APS home page (http://www.aps.org); click on the word fellowship. The nomination form can also be downloaded.

The 1998 DNP Fellowship Committee is comprised of B. C. Clark (Chair), R. F. Casten, S. J. Seestrom, S. E. Vigdor, and W. Benenson. The Fellowship Committee reviews the nominations for APS Fellowship referred to the DNP and recommends a slate of candidates, which is forwarded to the APS Fellowship Committee and then to the APS Council for approval.

It is particularly important for nominators to ensure that the cases that they prepare for the Fellowship Committee are well documented. In addition to that requested on the nomination form, information such as lists of invited talks, awards, professional activities, committee services, and participation in organization of conferences is very helpful. Inclusion of a complete publication list is highly recommended.

The DNP has adopted the following Fellowship Criteria Guidelines. To be chosen as a Fellow, an APS member should have a record of excellence in research that has been sustained over several years, and have completed at least one major, original work that has influenced his/her specialty in a significant way.

The list of APS Fellows (by APS subunit) elected in a given year appears on the APS Home Page in December and is published in the March issue of APS News. The names of newly elected DNP Fellows are published in the February Newsletter and the awards are presented at the DNP Business meeting of the Spring APS meeting.

7. NUCLEAR PHYSICS WEB SITES, J. Dairiki

The Exploratorium, the hands-on science museum in San Francisco, named “The ABCs of Radioactivity,” which was developed by LBNL’s Nuclear Science Division, as one of its 10 cool websites for May. The project was developed by members of the Division’s Education Committee. The site has been used as a guide and reference to nuclear science concepts and class room experiments by both teachers and students. Check it out at http://www-nsd.lbl.gov/NSD_docs/abc/home.html or click to LBNL from Laboratories under LINKS on the DNP home page and scroll down to Educational Resources.

8. ANNUAL REVIEWS OF NUCLEAR AND PARTICLE SCIENCE

The Division has continued the agreement with Annual Reviews, Inc., which will enable DNP members to obtain copies of the “Annual Review of Nuclear and Particle Science” at a 30% discount when purchased through the DNP Secretary-Treasurer, Benjamin F. Gibson, Los Alamos National Laboratory, DNP, MS B283, Los Alamos, NM 87545.

1998 Prices: The dual prices (separated by a slash) listed below correspond to USA/other countries including Canada. Volumes 12–29 and 31–41 are $55/$60 retail and $38.50/$42 for DNP members. Volumes 42 and 43 are $59/$64 retail and $41.30/$44.80 for DNP members. Volumes 44 and 45 are $62/$67 retail and $43.40/$46.90 for DNP members. Volume 46 is $67/$72 retail and $46.90/$50.40 for DNP members. Volumes 47 and 48 are $70/$75 retail and $49/$52.50 for DNP members.

Other Annual Reviews series publications are also available. A complete listing of topics and authors for the current volumes and back volumes of Annual Reviews publications may be viewed on the Annual Reviews Web Site at http://www.AnnualReviews.org. The Web Site also features a fully searchable abstracts data base for all Annual Reviews publications, which allows visitors to search by author name or key words.

Payment (payable to the Division of Nuclear Physics–APS) must accompany your order and must be in U.S. funds. California orders must add applicable sales tax. Since 1 January 1991, all orders shipped to Canada require the addition of a 7% General Sales Tax (Reg. #121449029 RT).

On the basis of the success of the target-date experiment, which was designed to improve the Division’s management of proposals, and to allow us, where appropriate, to employ disciplinary panels in the merit review process, the Division of Physics will use target dates for proposal submissions for disciplinary research activities competing for FY 1999 funds (FY 1999 begins on October 1, 1998).

The three target dates of interest to DNP members are:

1. Wednesday, September 30, for proposals concerning Special Programs and Conferences
2. Wednesday, October 14, for proposals concerning
Theoretical Nuclear Physics

3. Wednesday, November 4, for proposals concerning Experimental Nuclear Physics

Please do not send proposals more than one month in advance of the deadline to avoid processing timing difficulties.

Other target dates in the Physics Division can be found on the NSF/Physics Division web pages "http://www.nsf.gov/mps/phy".

The above dates do not apply to proposals sent to the Physics Division in response to Foundation-wide solicitations such as the Faculty Early Career Development (CAREER) or Research Experiences for Undergraduates sites (REU). These programs have specified target or deadline dates contained in their program announcements. More information can be obtained on the NSF web pages "http://www.nsf.gov/".
