

# Guide for Program Assessment, Improvement, and Review

---

**Goal:** Develop a working document to guide departmental review, assessment, and improvement

**Strategy:** National task force to design, write, vet, and disseminate a collection of **best practices** and guide for **self-assessment**, along with its inherent review structure to improve undergraduate physics. Although not accreditation at this time, it will form the basis of a document that could be used in this fashion; first beta-test sections likely to come out this fall with the full guide released in 2018.
