Panel Session II: Building Successful Graduates: Definitions, Admissions, Retention

Frances Hellman (UC Berkeley), Cagliyan Kurdak (Michigan), Andrea Palounek (Los Alamos)

In this session, participants will:

- Define criteria for a successful Ph.D. program in physics for the 21st century
- Strategies for aligning graduate admission process with the goals of a successful Ph.D. program
- Importance of appropriate academic and non-academic support for retaining a diverse group of students
